DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-16, 20-35 and 37-41 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims 2-6, 20-35 and 37-41 fail(s) to correspond in scope with that which applicant(s) regard as the invention can be found in the reply filed 6/1/2007. In that paper, applicant has stated

38. (Currently Amended) A combination of a coupling member, an electrical wire-carrying conduit having opposite ends, and a connecting member for positioning and securing said an electrical wire-carrying conduit to a remote supporting structure, wherein:
said coupling member ~~is adapted to receive~~ and supports said conduit, said coupling member comprising a tubular member having a longitudinal axis and at least one end, said end ~~adapted to receive~~ one end of said conduit along said longitudinal axis, and said tubular member having a wall containing an aperture facing said remote supporting structure; and
said connecting member having opposite ends, one end of said connecting member securely engaging said aperture in said wall of said tubular member, the opposite end of said connecting member extending outwardly beyond said wall and adapted to securely engage said remote supporting structure, to securely hold and support said coupling member and said conduit in a selected position.

39. (Currently Amended) A combination of a coupling member, a pair of electrical wire-carrying conduit, each conduit having opposite ends, and a connecting member for positioning and securing a said pair of electrical wire-carrying conduits to a remote supporting structure, wherein:

, and this statement indicates that the invention is different from what is defined in the claim(s) because the current claims recite duplicate pairs of electrical wire-carrying conduits, and connecting members.
